

GOVERNMENT PROJECT

About Project

A Brand New City Rises in Bahçekent
Istanbul's New Face: Tual Bahçekent
Introducing the future's urbanization
understanding in Bahçekent -
New Istanbul's symbol Tual Bahçekent
is rising as a modern city.

In close proximity to the Canal
Istanbul project and third airport, and
at the intersection point of the linking
roads to the third bridge, TEM, and
Northern Marmara highways,
Bahçekent follows the leads of mega
cities such as Bahçeşehir, Ataşehir,
and Kayaşehir. Enjoying large, spa-
cious residential areas and green
nature, Bahçekent has a special place
in Istanbul's future with its
construction typical of a modern
urbanization project.

About Project

Tual Bahçekent hosts prestigious educational institutions to which you can entrust your children. Private and public schools, kindergartens with independent units, and educational facilities designed primarily for students are all together in Tual Bahçekent.

High-quality educational facilities that can be reached by your children within a few minutes without suffering from traffic.

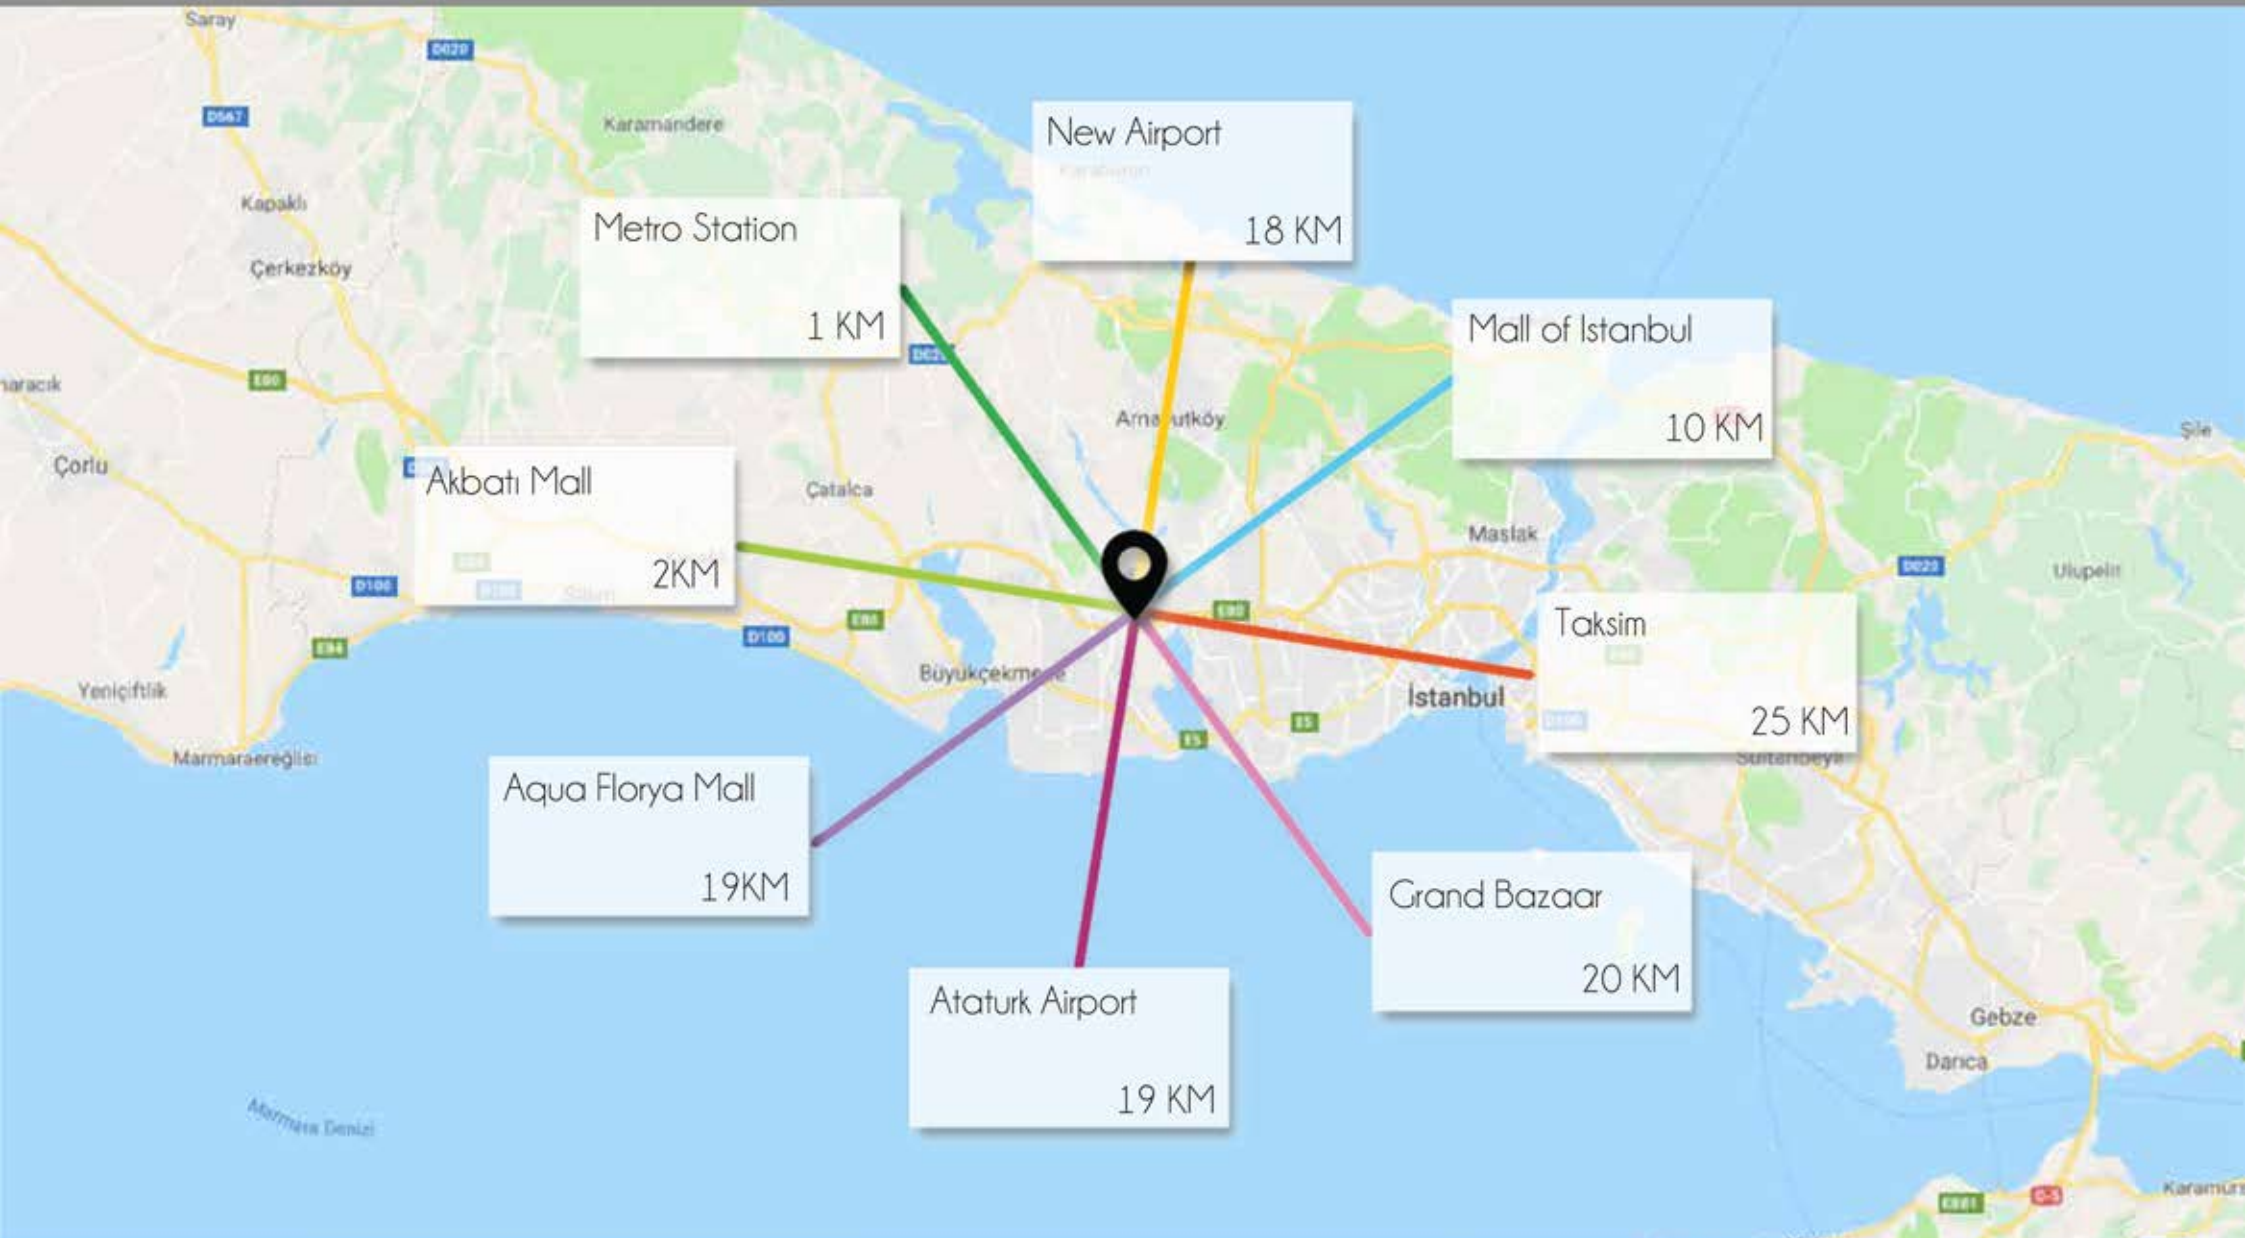

The pleasing areas of life here are as follows: Indoor pool, sauna, steam bath, fitness center, children's playgrounds, hiking trails, parking garages, kindergartens, a public school, private hospital, and mosque...
